

# ALTERNATIVE FUEL VEHICLE MAINTENANCE GARAGE TRAINING WORKSHOP SERIES

## HYDROGEN & NATURAL GAS MAINTENANCE GARAGE **FREE Code Compliance Workshop**

May 15, 2018 | 9:00 AM - 3:00 PM

**Location:**  
Emeryville Town Hall &  
Local AC Transit Upgraded Facility

Whether you're looking to upgrade your garage or just need to know more about how to design safe, code-compliant, and cost effective hydrogen or natural gas vehicle maintenance facilities, this workshop will ensure you're prepared and well-informed. Topics will include gas detection, emergency ventilation, heating, alarm systems, and more. After a classroom session at Emeryville Town Hall, participants will tour a local transit garage that has been upgraded with state-of-the-art equipment to service alternative fuel vehicles.

**This workshop will be beneficial to garage owners, fleet owners, fire marshals, safety professionals, and others involved with alternative fuel vehicles.**

**Free Registration:**  
[altfuelgarage.org](http://altfuelgarage.org)

This series of workshops was supported by a competitively awarded, cost-shared agreement from the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy (EERE), under Award Number DE-EE0007815, and developed by GTI.

# ALTERNATIVE FUEL VEHICLE MAINTENANCE GARAGE TRAINING

**Upgrading vehicle maintenance facilities to safely accommodate natural gas, hydrogen, or propane service can be a deciding factor in whether an organization chooses to adopt one of these fuels for its fleet. Upgrading a garage for code compliance can be confusing, unnecessarily expensive, and time consuming.**

GTI has developed in-person workshops and online resources that will provide a guide for how to upgrade maintenance garages for natural gas, hydrogen, and propane service. These workshops and resources cover important topics, including gas detection, emergency ventilation, heating, alarm systems, and a review of fuel properties.

**FREE workshops will include a morning of classroom activity and learning tools, followed by a visit to an actual garage to see a completed upgrade or one in progress.**

Educational material is freely available and downloadable on the training website. These online resources include reports, videos, case studies, and information on best practices and strategies for cost-effective code compliance.

**For updates on these workshops, visit [altfuelgarage.org](http://altfuelgarage.org)**

## AUDIENCE

- Garage owners
- Fleet managers
- Safety officers
- Fire marshals
- Authorities Having Jurisdiction

## INSTRUCTORS

**Training will be carried out by industry experts:**

### Natural Gas

Clean Energy –  
Facilities Modification Services

### Hydrogen

Frontier Energy

### Propane

Superior Energy Systems

## TIMING

Training will be held in six major cities. See [altfuelgarage.org](http://altfuelgarage.org) for details.
